

# Zahid Naeem

## Electrical Engineer

### Personal Summary

Highly experienced Electrical Engineer, with expertise in designing and developing complex electrical systems, specializing in power systems. I also have a diverse background in crushing operations, guidelines, and working well with team members. As a Crusher Operator, I sensibly operate machines that crush materials, ensuring quality output safely and efficiently.

### Objective

To pursue the right opportunity for a long-term career in a challenging organization, and to become a part of a dynamic group where I could further explore my skills and potential. I aim to serve in a challenging and diverse environment with vast opportunities for career development based on achievements and results.

### Post Applied For

Safety supervisor or Electrical engineer/ Electrical technician

### Experience

#### ○ 2012 - 2014

OGDCL | JAND DISTT. ATTOCK

#### Job position here

As an Assistant Electrical Technician, I played a pivotal role in ensuring the seamless functioning of electrical systems. My responsibilities encompassed a wide array of tasks that contributed to the operational efficiency and safety of electrical equipment. Working closely with senior technicians and engineers, I gained hands-on experience in diagnosing and troubleshooting electrical issues, performing routine maintenance, and executing repairs.

#### ○ 2014-2022

KHYBER STONES | CHOKARA KARAK

#### Job position here

During my impactful 8-year tenure at a crusher plant, I not only contributed significantly to the transformation of raw stones into crucial sand and gravel materials but also assumed a leadership role in guiding and supervising a dedicated team. Working within this dynamic environment, I seamlessly integrated team leadership into my responsibilities, overseeing operations and ensuring the efficient functionality of crushers, screens, and conveyors to meet and exceed production targets.
